TOGETHER WE CAN MAKE A DIFFERENCE!!

### Ecuador Church Remodel Project

As most of you know, in May of 2013, I married Maria Victoria Alvicar Molina and received her daughter Sarah as an added blessing. Nearly two years have gone by and both Sarah and Vicky are speaking English and doing great. (Unfortunately, my Spanish is no better). We are blessed and head over heels in love! As Vicky so often says, **“God is so wonderful!”**

During our courtship, I spent six weeks with Vicky and her family getting to know them, living and worshipping with them, and doing ministry together as we trained a drama team. They are a very close family as is often the norm in Latin America. Vicky’s parents love the Lord and pastor a small congregation in what was once a wine cellar as part of the property belonging to Vicky’s father. The church is in a location where there is potential for growth; however, due to the condition of the facility and lack of a separate area for children’s ministry, the church is not growing. There are presently about 30 members in the congregation but not enough financial contributions to even support the pastor. Much needed renovations would be impossible for the church to do alone.

With that in mind, we would like to give you the opportunity to join with us in helping Vicky’s family renovate the present facility. The following is a letter that I received from Pastor Raul, Vicky’s father, describing the project:

*“Pastor Raul Molina gives you a greeting of heart and wishes that peace of God rule in your heart. The purpose of this letter is aiming to request your help to continue with reconstruction and improvement of the temple called “Light of Life” which is where we are working in the service of God. Initially, this place was designed as “wine cellar” but when we started to use it as a house of prayer, we found it necessary to make adaptations to it. The project is: As for the improvements, is neces-*

*sary to change the front facade. As regards suitability for a better climate, change roof in its entirety, because when it rains it gets wet, and by noise situations must be placed plaster in an*

*area measuring 100 square meters. Once placed plaster is necessary weatherize the place, give it better lighting and make an entrance door large.*

*This project will give us a healthy environment and with God’s help to continue teaching the Christian Training Center classes and the Word of the Lord and glorifying our God in every service.*

At this point, I need to interrupt Pastor Raul’s letter to help you better understand the real need and true scope of this project. Other than the obvious need for renovations to the present sanctuary, there is another very important need which Pastor Raul, in humility, was not addressing: the need for a separate space for their children’s ministry. There is currently no space available for children’s classes without competing with the ministry in the sanctuary. To properly meet the needs of a growing congregation, this project must include the addition

*of the second floor for children’s ministry.*

*It is noteworthy that we have begun rebuilding the temple, and we have managed to collect some of the money, and*

*knowing that is in your heart help us, we let you know our project so that you can help us with what you can and is in the will of our Lord Jesus Christ. The Lord continue to bless you and prosper your family and ministry.”*

The photos do not tell the whole story! I have personally mopped as much as two inches of water that completely covered the sanctuary floor and most of the platform after a good rain. The walls need to be re-plastered and sealed, the openings in the sidewalls blocked

closed (you can see in the photo where they have blocked in one open area), and the front entry enlarged. They also need to put in new lighting, a false ceiling, and air-conditioning. The addition of a second floor would solve the current roof problem and give them a good sanctuary and excellent facility for the CTC classes. It would also allow for growth in both the children’s ministry and the church as a whole.

The estimated cost for this project, including the second story, is **\$12,000.00**. As Pastor Raul indicated, the church has given some funding toward the cost, but I know that at this point the church is not able to support the pastor. I believe the amount of their contribution is great on a sacrificial level but not likely to be very much on a practical level. Vicky and I are also committed to seeing this project move forward because we know the potential that is there for fruitful ministry. I am presenting this opportunity as a way for you to sow into the restoration of a temple of God. I know that with your help a great obstacle will have been overcome, faith will increase, and miracles will go forth as the name of Jesus is glorified. Every gift is a blessing and will be put to good use; I know you would not give looking for recognition. However, Pastor Raul will honor each person who gives **\$1,000** with a plaque on the wall of the church, recognizing their participation and thanksgiving for their partnership in helping them lift the name of Jesus higher.

If you would like to join Vicky and me in helping the

congregation of **“Light of Life”** lift their light a little higher and shine a little brighter, then we invite you to give today. Please make your check payable to **ITM, Inc.** and mail it to **PO Box 958, Oldsmar, FL 34677**. Be sure to write **“Light of Life”** on the memo line. As with our “Project Gideon” giving, ITM will give 100% of monies received to this project without taking our normal 7.5% administrative fee from project funds. (The 7.5% administrative fee we normally re-direct from project funds does not fully cover our cost of operation for the ministry. Vicky and I contribute monthly to the “Admin” account to help keep the ministry operating). Thank you in advance for your prayerful consideration of this project. We know you have many ministry choices in which to sow your giving. We’re doing our best to provide you choices that will bear fruit, multiply, and remain.

In January I met Sondra Livermore, our Central and South American director, in Panama City, Panama, where she has developed a relationship with Pastor Saul & Vielka Mosquera. We also connected with Pastor Domingo Moreno from the Panamanian city of David (some 8 to 9 hours from Panama City) who is also interested in a CTC program. I will make a report on our ministry with them in next month’s newsletter. Panama is the 22nd country where we currently have CTC programs in operation. PTL!!

I travel to Rwanda the last week of February to work with George Kurenji who I have mentioned before. He is overseeing several CTC programs in different countries in Central Africa. From there I travel to Malawi to work with Pastor Stephen Tambuli. The last week of April I am scheduled to teach in China and then travel to the Philippines for a graduation ceremony. I will give reports on these trips in future newsletters. Please pray for God’s provision, His anointing as I teach, safety in the travel, and favor with seating on those long, long flights.

Thank you for your continued faithful giving! If you haven’t already, please consider joining our “Project Gideon” opportunity. You are daily in my prayers!!!!

**Together We’re Making A Difference!!**

**YOU CAN MAKE A DIFFERENCE!** There are several ways to give: To support RevC or a particular project you can either donate online at [www.revc.org](http://www.revc.org) by clicking the **“RevC Support”** button or the **“Project Support”** button, or send your gift to **Indigenous Training Ministries, Inc. (ITM, Inc.)** and mail to **P.O. Box 958, Oldsmar, FL 34677** and put **“Preference Light of Life Project”** or **“Preference RevC”** or **“Project Gideon”** on the check memo line. The IRS does not allow donors to designate a gift, but you can indicate your **“preference”** for its use. Questions?? contact RevC at: [RevC@revc.org](mailto:RevC@revc.org) **Thank You for your prayers and support !!!!**

Notwithstanding any other statements in this communication, please remember that any contributions to MVI or ITM are under their full discretion and control as is required by IRS regula-
